PERSONAL PROJECTS

E-Store (06/2024 - 08/2024)
- A fully functional e-commerce platform where users can browse, search, and purchase products. Features include user authentication, order management, and product categories.

School Management System (01/2024 - 03/2024)
- A comprehensive school management system with modules for exam management, student and teacher profiles, library management, and more. Ideal for automating various school processes.

QuranTeach (03/2024 - 03/2024)
- A web-based platform designed for teaching the Quran. It includes lesson plans, quizzes, and progress tracking.

File Manager
- A file management system allowing users to upload, organize, and download various types of files (images, videos, documents).

Quiz Web App
- An interactive quiz platform that allows users to participate in timed quizzes, track their progress, and view results.

PHP Dashboard
- A dynamic dashboard built with PHP, allowing users to manage content, view statistics, and perform administrative tasks.

ACHIEVEMENTS

Created projects like E-Store, School Management System, QuranTeach, File Manager, and PHP Dashboard.
